

Phillip Fern has just been hired at Flowers by Judy in Weimar, Texas. Like most boys, he has not had any experience creating floral designs BUT he has a strong work ethic and an incredible willingness to learn. In addition to working in the back, trying to create designs worthy of the 300% mark-up that most florists charge, Phillip also takes orders from customers. He has just received his first order for a birthday corsage for Mrs. Johnson. Judy is relying on you to share with Phillip what tools he will need and why he will need them in order to create a corsage made with roses, baby's breath, and leather leaf fern. The corsage is made to wear on the shoulder.
